setting in memory of childhood dreams...*

HISTORY LESSON

Collège Hôtel**** pays tribute to the **dreams we dreamed when we were young**, the dreams that filled our heads as we sat at our desk facing blackboards and geography maps, with our thoughts in another world... Dreams of trips, of imaginary worlds, of adventure...

This hotel with a **"back to school" theme** is found in a magnificent Art Deco building that towers over Place Saint-Paul, a happy coincidence for this school district in Old Lyon. It's the perfect setting for **taking a stroll down memory lane**.

Construction of an Art Deco-style building Creation of the Celtic Hotel	1930
The Old Lyon district is listed as a UNESCO World Heritage site	1998
Acquisition of the Celtic Hotel by ehôtels-Collection Group and start of restoration work	2001-2002
Opening of Collège Hotel**** that combines contemporary design and childhood memories on the theme of school	2003
Installation on the façade of The Chairs of Collège Hotel , a work by artist Pablo Reinoso for the Tenth Biennial of Contemporary Art	2009
Work on enlarging the hotel and renovation of the work by Pablo Reinoso	2015
Installation of two works of art in the stairwells; these works were created by students from the National School of Fine Arts of Lyon within the framework of a pedagogical partnership	2019
The eco-responsible commitment of Collège Hôtel is rewarded with the eco-label 'B'	2020

Around the hotel, an **atmosphere reminiscent of Italy** emanates from small streets lined with the colorful façades of artisan's shops, typical Lyon bouchon restaurants and many other activities characteristic of the city of Lyon.

CONCEPT & STYLE

IN MEMORY OF OUR DREAMS

The designers needed **three years of hunting** for flea-market treasures to re-create the hotel's unusual atmosphere based on **contrasts** like the one between old-fashioned inkwells and a room with a modern design.

The **red "e"** has become the sign that links all projects by the **èhôtels-Collection** Group:

L'Ermitage Hotel Cuisine-à-Manger (2007), Fourvière Hotel (2015), Les Lanternes (2019) and L'Eautel (2020).

Reception welcomes you with a **pommel horse** from **1914** that was part of the gym equipment at the Lycée Royal in Versailles.

The **logo** refers to a method for teaching French grammar, where the difficulty is identified in red.

In 2019 within the framework of an **innovative partnership** between Collège Hotel and the National School of Fine Arts of Lyon, students adopted the theme of the setting and created **two works** to decorate the **hotel stairways**.

FASCINATING FAÇADE

The Franco-Argentinian artist **Pablo Reinoso** created a permanent work for the hotel entitled **The Chairs of Collège Hotel**. This installation transformed the façade into an **open-air classroom** where the pupils seem to have left in a noisy rush for recess at the first sound of the bell.
